

Top Flake Extra Coarse Salt

Product Overview:

Top Flake Coarse Salt is food grade sodium chloride, extra coarse screened and compacted into flat, smooth-surfaced, rectangular aggregates that provide strong adhesion. Top Flake Coarse Salt particles tend to be harder and are less susceptible to attrition during storage and handling than grainer flake salt. Its white, opaque color is visually appealing.

USES

- Cereals & Baked Goods: Topping for crackers, breadsticks, snack crackers
- Dry Blends & Seasonings: Bouillon cubes, salad-style seasoned salt, coarse seasonings and rubs
- Dairy: Vat-salted Cheddar and Colby; Brine-salted Italian, Swiss, Blue, Brick
- Meat, Poultry & Fish: Dry-cured meats, dry-salted fish, koshering

The uses described above are subject to revision and/or changes based upon nutritional and manufacturing criteria.
